

User Acceptance Testing (UAT) Report

Acceptance testing for the Incident Life Cycle Automation workflow

DATE	STUDENT NAME	PROJECT
07 October 2026	Gangadevi.R	Incident Life Cycle Automation

1. Purpose

Validate that the implemented incident lifecycle supports real user tasks from incident creation through closure, including ownership, SLA handling, updates and audit history.

2. Testing scope

- Incident creation and validation
- Classification / priority
- Assignment and reassignment
- Status updates and investigation notes
- SLA visibility and escalation
- Resolution and closure
- Search, dashboard and audit history
- Role-based access

3. UAT test cases

Test ID	Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
UAT-01	Create an incident	Enter valid required fields and submit	Incident ID generated; state = Logged	To be recorded	Pending
UAT-02	Reject incomplete incident	Omit a mandatory field and submit	Validation message shown; incident not created	To be recorded	Pending
UAT-03	Assign incident	Set owner / queue	Owner and assignment time recorded	To be recorded	Pending
UAT-04	Update incident	Add work note and change status	Update appears in timeline / history	To be recorded	Pending
UAT-05	SLA escalation	Simulate at-risk / breach condition	Correct escalation event generated	To be recorded	Pending
UAT-06	Resolve incident	Enter resolution and save	State becomes Resolved with timestamp	To be recorded	Pending

Test ID	Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
UAT-07	Close incident	Complete closure action	State becomes Closed and final history remains available	To be recorded	Pending
UAT-08	Audit review	Open incident history	Who/what/when changes are visible to authorized reviewer	To be recorded	Pending

4. Defect log

Bug ID	Description	Severity	Status	Notes
BUG-001	To be recorded during execution	-	Open / Closed	Record reproducible defects only.
BUG-002	To be recorded during execution	-	Open / Closed	Add evidence and steps to reproduce.

5. Sign-off

Role	Name	Date	Status
Tester	Gangadevi.R	07 October 2026	Pending
Project Reviewer	To be recorded	07 October 2026	Pending
